WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make two. Outer pan: 1 mm aluminium, 1200 x 1000 x 250, open at the bottom, corners folded and riveted.

Inner pan: 1 mm aluminium, 1120 x 920 x 210, open at the bottom.

Fill the 40 mm gap at the top and sides with mineral wool slab; close the bottom edge with a riveted U-channel.

Fit hardwood blocks in the wool at the four handle standoffs and the inlet, so bolts clamp on wood, not on wool.

Inlet hole: 30.6 through both skins, centred across, 150 in from the end nearest the trailer.

Check: the hood lies flat on a floor; no wool shows.
