WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Foot: 10 mm plate 150 x 150 with four 11 mm holes, 100 apart.
Post: 50 x 50 x 3 tube, 1004 long, welded square on the foot.
Saddle: 6 mm plate 80 x 60 welded on top; two pairs of 9 mm holes for the two M8 U-bolts that hold the header, 40 apart.
Fit: the post stands on the deck 130 to the right of the firebox, in line with the header; four M10 bolts through the deck.
The header rests on the saddle, 1550 above the ground.
Check: the post is upright both ways within 2 mm over its height.
