WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Clamp band: 40 x 3 strip rolled round the pot (114.3), bolted closed with one M8 bolt through two ears.
Stay: 40 x 6 flat bar, 132 long, welded to the band at one end and to the front face of the header post at the other.
It holds the pot upright 600 above the deck.
Check: the pot does not move when pushed at the top.
