WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make two. A band 100 tall of 1.5 mm galvanised sheet that fits round the outside of the hood: 1203 x 1003 outside.

Fold the corners; join the ends with rivets.

The top 40 laps the hood's outer skin; rivet at about 100 centres.

The bottom 60 goes into the soil: it stops steam escaping sideways.

Check: the band is tight on the hood; the bottom edge is straight.
